

ENVIRONMENTAL POLICY

Spectrum printing Services Ltd is committed to the importance of taking full account and consideration of the company's impact on the environment.

Therefore the company will give due consideration at its business planning, development manufacturing and sales and marketing stages as to its impact on all current and future environmental matters.

The overall culture of the company will be for continuous development, training and communication to all its employees on environmental issues to improve and lessen its impact on the environment.

Moving forward it will seek to comply with all legislative and regulatory requirements to meet its overall environmental legal compliance within the business.

The following objectives will be pursued as far as reasonably practicable, in its pursuit of reducing its impact on the environment.

To manage and minimise its waste, in manufacturing and packaging.

To ensure we manage the safe use, storage and disposal of all chemicals and effluents, and reduce chemical usage where possible, and to prevent any form of pollution.

Consideration will be given to the purchase of supplies and consumables to lessen their impact on the environment.

Provide safe clean and hygienic working conditions for staff and employees.

To manage the buildings, infrastructure and transport, including the recycling of internal waste.

The Directors will promote awareness and training to all employees throughout the business on its environmental commitment, for continual improvement and the likely impact on its business, customers and the environment in general. The policy will be reviewed annually.

DIRECTORS: Paul Clifton, Karl Nicholson
